

*The 2016 inaugural Program was a resounding success!*

*Save these dates for your 2017 season!!*

### The Two-Day Clinic with Barb Crabo: Alhambra Stables Red Deer, AB Saturday/Sunday July 29-30, 2017 CANCELLED

Barb Crabo will be coming back to work with our Young Prospects for two solid days of young horse development. As a breeder and producer of event horses up to the four star level, Barb comes with vast insight and knowledge regarding the making of a solid competition mount. We would like to also invite anyone who attended the YPP development clinic with Barb last year (even if your horse has aged out of the program) to join us!

### The Evaluation: Alhambra Stables, Red Deer, Ab Thursday, August 17, 2017

Young Prospects and New Prospects will be evaluated on the Thursday leading in to the Alhambra Summer Event. The evaluation has been moved away from the clinic this year to expand the program further. In-hand work on the triangle will be done after the flat rides. The jumping phase will be held in the infield area.

*An additional clinic is also in the works for later in the year, possibly more towards early winter. Stay tuned for more info....*

*As we continue to develop this program we welcome any and all constructive and helpful input and feedback. The above format is an improvement over last years inaugural attempt, now we have a start, we want to continue to develop something that everyone can utilize in their programs.*

The Alberta Horse Trials Association would like to congratulate the winners of the Young Prospects Program held at Alhambra Stables on July 31, 2016.

**This is a tremendous tool for anyone interested in the sport of Eventing to access information and contacts with breeders, young prospects and trainers developing young prospects.**

#### **Our Purpose is;**

- To identify and track young sport horse talent in Alberta.
- To educate breeders, trainers, and riders in the development of young sport horse prospects in Alberta.
- To provide an avenue for breeders in Alberta to connect with riders who can develop/produce young prospects.
- To provide a venue for the public to see young horses as they come up through the program.
- To raise awareness and promote all young prospects for all levels of competitions

Entry forms and other information to be released soon; Questions about the Young Prospects Program in 2017?

**Dr. Ela Misuno DVM MVSc**

Dr. Ela Misuno received her DVM from Warsaw Agricultural University in Poland. Following graduation she moved to Denmark where she worked as a general equine practitioner. In 2012 she successfully completed a 3 year residency program in Large Animal Internal Medicine at the WCVU, University of Saskatchewan, and masters' project on internal parasite infections in local horses.

Dr. Misuno's interests within veterinary medicine are focused on equine parasitology and nutrition. She has been with Vetoquinol for over 4 years and her current positions are Equine Technical Service Veterinarian, Key Account Manager and supporting Product Manager. She has had a passion for horses all her life, as an owner rider and active supporter of the industry.
