

Application for Event Site Support

Applications for event site support must be received by the AHTA President by December 15th of the year prior to the year money is requested for. Money granted to Events will be paid upon receipt of a report and invoices detailing how the grant was spent.

The criteria for funding are:

- (1) The money is to be used for sports equipment, which cannot be capital in nature, for example jump standards and cross-country jumps would be approved but footing or stabling would not be approved (if AHTA finances allow, support may be provided for capital expenditures using non-casino funding at the sole discretion of the board);
- (2) the Event Committee is to have a long range plan for course development and hosting a sanctioned competition;
- (3) there is a budget of work to be considered;
- (4) an appropriate course designer has been involved in the planning of work to be done;
- (5) an appropriate course builder is utilized for major construction efforts;
- (6) there is a reasonable construction schedule;
- (7) funds advanced to the Event Committee are in the way of a loan, forgivable after 5 years, in which an event has been offered each year to the membership;
- (8) failure to execute event commitments is grounds for the return of funds advanced and/or fences and all salvageable materials.
